Parks Synthetic Turf Conversion and Replacement is an eligible project under the 2022 PARKS SPLOST Program (Cobb County 2022 SPLOST, Page 29). Synthetic turf fields typically need replacement every 8–10 years due to wear from heavy use, UV exposure, and degradation of fibers and infill. As the surface ages, it can lose resiliency, traction, and shock absorption, which affects player safety, performance, and drainage. Planned replacement within this lifecycle helps maintain safe playing conditions and protects the long-term value of the facility.
